

### Orientation Modules (Jumpstarts)

Free 'getting started' modules for all User Roles.

All Users, Architects, Administrators

TIBCO Spotfire Platform Jumpstart (eLearning)

Consumers / Business Users

TIBCO Spotfire Web Player Jumpstart (eLearning)

Authors / Analysts

TIBCO Spotfire Professional Jumpstart (eLearning)

Developer / SDK

TIBCO Spotfire Developer Jumpstart (eLearning)

### Authors / Report Developers

Design and Implement Spotfire Analysis Files, using the TIBCO Spotfire Professional client, f or others to consume.

SP199 TIBCO Spotfire Author Bootcamp

Foundation

SP121: TIBCO Spotfire Essentials I (classroom & blended)

SP131: TIBCO Spotfire Essentials II (classroom & blended)

SP141: TIBCO Spotfire for Advanced Analysts (classroom & blended)

SP151: TIBCO Spotfire for Authors (classroom & blended)

Extension (optional)

SP142: TIBCO Spotfire Multivariate Data Analysis (blended)

SP144: Statistical Applications with TIBCO Spotfire (classroom & blended)

SP152: TIBCO Spotfire Large Data Access (classroom & blended coming soon)

SP232: TIBCO Spotfire Automation APIs with IronPython (blended)

### Administrators

Install, validate, monitor, and manage servers or other computer systems related to the Spotfire Deployment.

Sys Admin

SP301: TIBCO Spotfire Installation and Validation (classroom & blended)

SP302: TIBCO Spotfire Admin & Configuration (classroom & blended)

DBA

SP311: TIBCO Spotfire Information Services (classroom & blended)

SP312: TIBCO Spotfire Application Data Services (classroom & blended)

### Analysts / Casual Users

Use TIBCO Spotfire Professional to perform ad hoc analysis by loading data, configuring visualizations and applying analytics.

SP121: TIBCO Spotfire Essentials I (classroom & blended)

SP131: TIBCO Spotfire Essentials II (classroom & blended)

### Consumers / Business Users

Consume Spotfire Analysis Files that have been created for them. Typically consumed in either TIBCO Spotfire Web Player or TIBCO Spotfire Enterprise Player.

TIBCO Spotfire Web Player Jumpstart (eLearning)

Skilled and certified instructors providing classroom training either onsite at your facility or regionally at one of our training centers

Combines 60 day access to asynchronous learning materials, with live webinars and ongoing instructor support.

University style distance learning course, using our blended delivery. Includes all courses for a given role.

Jumpstarts orientate users to a specific product or component. All jumpstarts are free and delivered via eLearning

### Developers

Automate, Integrate, and Extend the Spotfire platform using the SDK.

SP299 TIBCO Spotfire Developer Bootcamp

C# .NET APIs

SP221: TIBCO Spotfire Developer Foundations (blended)

SP231: TIBCO Spotfire Automation APIs with C# (blended)

SP241: TIBCO Spotfire Basic Extensions (blended)

SP251: TIBCO Spotfire Advanced Extensions (blended)

Other APIs

SP232: TIBCO Spotfire Automation APIs with IronPython (blended)

SP211: TIBCO Spotfire Web Player APIs (blended)

### Statisticians

Create and integrate statistical scripts and functions into applications, including Spotfire

S+

SPS101: S+ Essentials (blended)

SPS201: S+ Programming (blended)

SPS210: S+ Advanced Programming (blended)

R

SPR101: R Essentials (blended)

SPR201: R Programming (blended)

SPR210: R Advanced Programming (blended)
